DOCUMENT VERSION CONTROL RECORD

Version Number	Effective Date of Release	Summary of Included Changes	Author
1.0	28 September 2026	First release as 'AI Powered Wordpress eCommerce': one day, five topics and seven Markdown labs on WordPress and WooCommerce.	Dr. Alfred Ang
2.0	4 November 2026	Course retitled 'Build a Professional eCommerce Store with Generative AI'. Courseware rebuilt on the v16 eCommerce syllabus: seven topics — Topic 1 AI for WordPress and WooCommerce (choosing ChatGPT, Gemini or Claude, model tiers, prompt structure, WordPress 7 AI Connectors and AI features), the five WooCommerce store topics, and Topic 7 SEO in the Age of AI Search (SEO, AEO, GEO, E-E-A-T, AI for SEO, on-page SEO). Seven Generative-AI labs run one storyline for Harbour & Co, a Singapore fashion label — set up the store with GenAI (Labs 1–5), get found with SEO (Lab 6) and get customers with digital marketing (Lab 7). Each lab has its own folder with an instructions PDF and a Prompt Playbook page, copy-ready prompts, mock data, product images and templates, and the Harbour & Co Toolkit plugin. Day re-timed to 9:30am – 5:30pm, 7.5 instructional hours with a 30-minute lunch.	Dr. Alfred Ang

Course Information

Item	Detail
Course Title	Build a Professional eCommerce Store with Generative AI
Course Code	C6
Training Provider	Tertiary Infotech Academy Pte Ltd (UEN 201200696W)
Duration	1 day · 450 minutes (7.5 instructional hours, excluding a 30-minute lunch)
Daily Timing	9:30am – 5:30pm (lunch 1:00pm – 1:30pm)
Course Components	Classroom facilitation 335 min · Hands-on labs 115 min
Mode	Instructor-led classroom facilitation with hands-on Generative-AI labs on a live WordPress + WooCommerce store
Platform	WordPress 7.1.4 + WooCommerce 11.2.1 + Storefront; ChatGPT (https://chatgpt.com)
Course Store	Harbour & Co — a Singapore fashion label making breathable city wear for the tropics
Lab Environment	Five demo WordPress sites — wp1.tertiarytraining.com – wp5.tertiarytraining.com — one per learner, login at /wp-admin with trainingN@tertiaryinfotech.com, where N is your site number (wp3 → training3@tertiaryinfotech.com) / given by your trainer; reset before each class
Trainer	Dr. Alfred Ang

Learning Outcomes

On completion of this course, learners will be able to:

- LO1: Setup and monitor WooCommerce CMS to ensure adherence to guidelines and policies.
- LO2: Edit and curate product website on WooCommerce CMS.
- LO3: Maintain product web content on WooCommerce CMS.
- LO4: Recommend payment and shipping methods on WooCommerce CMS to improve customer experience.
- LO5: Manage issues related to WooCommerce CMS such as sales, out-of-stock, promotion etc.
- LO6: Manage WooCommerce CMS performance.

Course Schedule

Day 1 — Set up with GenAI → get found → get customers

Time	Duration	Topic / Activity	Topic	Resources
9:30am–9:45am	15 min	Welcome, trainer and learner introductions, and ground rules	—	Slides 1–14
9:45am–10:00am	15 min	Learning outcomes and course outline; lab environment, logins and the Harbour & Co scenario	—	Slides 1–14
10:00am–10:35am	35 min	Topic 1 — AI for WordPress and WooCommerce: choosing ChatGPT, Gemini or Claude; model tiers; the structure of an effective prompt; WordPress AI Connectors and AI features in the editor.	T1	Slides 15–30
10:35am–11:20am	45 min	Topic 2 — Overview of WooCommerce CMS: what WooCommerce is, installing it step by step, the setup wizard, themes, widgets, shortcodes, settings, currency and tax; facilitated discussion 'Content Management Policies for Your	T2	Slides 31–63

		Store'.		
11:20am–11:45am	25 min	HANDS-ON — Lab 1: Launch Harbour & Co — WooCommerce Plus an AI-Designed Homepage	T2	Slides 64–70, labs/lab-01-launch-harbour-and-co/
11:45am–12:20pm	35 min	Topic 3 — Manage Products: product types, the Product Data panel, descriptions, images and galleries, catalogue visibility; prompting ChatGPT for product photos and copy.	T3	Slides 71–80
12:20pm–12:30pm	10 min	HANDS-ON — Lab 2: Shoot and Write a Product with AI	T3	Slides 81–87, labs/lab-02-ai-product-photos-and-copy/
12:30pm–12:50pm	20 min	Topic 3 — Variable products, categories, tags and attributes, up-sells and cross-sells, the CSV importer, the Customizer and WooCommerce Blocks; turning supplier notes into a CSV with AI.	T3	Slides 88–108
12:50pm–1:00pm	10 min	HANDS-ON — Lab 3: Let AI Build the New-Season Catalogue	T3	Slides 109–116, labs/lab-03-ai-builds-the-catalogue/
1:00pm–1:30pm	30 min	Lunch break	—	
1:30pm–2:15pm	45 min	Topic 4 — Manage Payments and Shipping: the store policies a customer reads before paying, online and offline payment methods, choosing a gateway, shipping zones, flat rate, free shipping and local pickup; facilitated discussion 'Recommend Payment and Shipping for Customer Experience'.	T4	Slides 117–129
2:15pm–2:40pm	25 min	HANDS-ON — Lab 4: AI Drafts the Policies, You Switch On Payments and Shipping	T4	Slides 130–136, labs/lab-04-ai-policies-payments-shipping/
2:40pm–3:20pm	40 min	Topic 5 — Manage Sales: orders and statuses, editing and adding orders, refunds and restocking, coupons and the three discount types; AI-drafted customer replies.	T5	Slides 137–152
3:20pm–3:45pm	25 min	HANDS-ON — Lab 5: Run a Day of Orders — Refund, Restock, Reply with AI	T5	Slides 153–159, labs/lab-05-orders-refunds-ai-replies/
3:45pm–4:20pm	35 min	Topic 6 — Manage Performance: Reports and Analytics, customer and stock reports, dashboard widgets, eCommerce metrics and the criteria for evaluating them, Google Analytics; facilitated discussion 'Metrics to Measure Store Performance'.	T6	Slides 160–175
4:20pm–4:55pm	35 min	Topic 7 — SEO in the Age of AI Search: how search works, SEO / AEO / GEO, E-E-A-T, prompting AI for SEO, meta titles, descriptions, URLs, sitemaps and alt text; social posts, newsletters and UTM-tagged campaigns.	T7	Slides 176–205
4:55pm–5:05pm	10 min	HANDS-ON — Lab 6: Get Found — AI Writes the SEO, You Approve It	T7	Slides 206–213, labs/lab-06-ai-seo/
5:05pm–5:15pm	10 min	HANDS-ON — Lab 7: Launch the Resort Linen Drop — Social, Newsletter, Results	T7	Slides 217–225, labs/lab-07-ai-digital-marketing/
5:15pm–5:30pm	15 min	Course summary, Q&A, next steps and course feedback	—	Slides 226–231, Slides 232–233

Day total: 7.5 instructional hours (9:30am – 5:30pm) — 450 minutes, excluding the 30-minute lunch. Classroom facilitation 335 min · Hands-on labs 115 min.

Hands-On Labs — one store, one storyline

Harbour & Co is a Singapore fashion label selling breathable city wear — linen shirts, polos, tees, skirts, trousers and accessories — from a studio shop at 71 Ayer Rajah Crescent. The founder, Rachel Lim, wants to sell online before the Resort Linen season

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

launches. You are her eCommerce lead for the day: set the store up with Generative AI, get it found in search, then market the launch.

Lab	Phase	Title	AI does	You decide	Min
Lab 1	1	Launch Harbour & Co — WooCommerce Plus an AI-Designed Homepage	ChatGPT writes the homepage copy and the page layout as WordPress-ready HTML.	You choose the layout, check every claim against the brand brief, and decide who may publish.	25
Lab 2	1	Shoot and Write a Product with AI	ChatGPT generates the product photo and drafts the short and long descriptions.	You reject any photo or sentence that breaks the brand brief, and you enter the facts (price, SKU, stock) yourself.	10
Lab 3	1	Let AI Build the New-Season Catalogue	ChatGPT converts messy notes into a CSV with WooCommerce's exact column headers.	You check SKUs, prices and stock against the notes before importing — the importer will not.	10
Lab 4	1	AI Drafts the Policies, You Switch On Payments and Shipping	ChatGPT drafts every policy page from the brand promises in the brief.	You check every promise matches the settings you configure — and you flag the drafts for the owner's legal review.	25
Lab 5	1	Run a Day of Orders — Refund, Restock, Reply with AI	ChatGPT drafts the customer reply and an out-of-stock message.	You decide the refund, check the amount, edit the reply and press send.	25
Lab 6	2	Get Found — AI Writes the SEO, You Approve It	ChatGPT researches buyer keywords and writes titles, descriptions and alt text to the character limits.	You choose the keyword for each page and approve the wording — AI cannot see your rankings.	10
Lab 7	3	Launch the Resort Linen Drop — Social, Newsletter, Results	ChatGPT writes the captions, generates the post image, drafts the newsletter and analyses week-1 results.	You approve every word before it is public and decide what to change from the numbers.	10

Each lab folder (labs/lab-NN-…/) holds the instructions PDF with its Prompt Playbook page, COPY-PROMPTS.txt, mock data, product assets and templates; labs/prompts/index.html is the offline Lab Prompts page.

Facilitated Discussions

Discussion — Content Management Policies for Your Store (15 min, Topic 2)

In pairs, consider a store you would run. Decide what content management policies, guidelines and user permissions it needs, and how you would monitor that people actually follow them.

- Who should be able to publish a product, and who should only be able to draft one?
- Which WordPress/WooCommerce roles map to those responsibilities?
- What product-content guidelines would you set — image size, description length, mandatory fields?
- Who checks AI-written copy before it goes live, and against which brand rules?

Discussion — Recommend Payment and Shipping for Customer Experience (15 min, Topic 4)

Working from the store you have built, recommend the payment and shipping mix that would give your customers the best experience — and justify the trade-offs.

- Which payment methods do your customers expect, and what does each one cost you?

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

- Does the customer stay on your site, or get redirected? Why does that matter for conversion?
- Would free shipping above a threshold raise your average order value or erode your margin?
- Which shipping zones do you actually serve, and what happens to orders outside them?

Discussion — Metrics to Measure Store Performance (15 min, Topic 6)

Decide which metrics you would use to judge whether the store is succeeding, and what criteria make a metric worth tracking at all.

- Which three metrics would you put in front of the business owner every week?
- What makes a metric useful — is it actionable, comparable, and tied to a decision?
- What does a rising refund rate or a falling repeat-customer rate actually tell you?
- Which report or tool produces each metric — WooCommerce Analytics or Google Analytics?

Instructional Methods

- Lecture — trainer-led explanation of concepts with visual slides.
- Didactic questioning — the trainer poses questions to check and deepen understanding.
- Facilitated discussion — learners apply Topics 2, 4 and 6 to their own organisation.
- Demonstration — the trainer demonstrates each WordPress, WooCommerce and ChatGPT step before learners attempt it.
- Hands-on practical — learners complete Labs 1–7 on their own demo store, using ChatGPT for every AI step.

Resources Required

- Classroom with projector or large screen, whiteboard and reliable Wi-Fi; one laptop per learner with a modern browser.
- A demo WordPress site per learner — wp1.tertiarytraining.com – wp5.tertiarytraining.com — with administrator access (see Course Information).
- A ChatGPT account per learner (free tier works; image generation may be slower).
- Plugins installed during the labs: WooCommerce, Storefront theme, Harbour & Co Toolkit (labs/lab-01…/plugin/), All in One SEO, MailPoet.
- The labs/ folder (instructions PDFs, prompts, data, assets, templates) and labs/prompts/index.html.
- Trainer rehearsal: docker/ in the course repository builds the finished Harbour & Co store locally (docker compose up -d && bash setup.sh).
- Course slides, Learner Guide and Lesson Plan on https://lms-tms.tertiaryinfotech.com.
